

Wiscasset Waterfront Committee
April 28th, 2016 Minutes

Called to order @ 1900

Present: Susan Robson, chair; Frank Sprague; Dick Forrest; Marge Strong; Dave Goggon; Preston Dunning

March meeting minutes approved 4/0

Introduction of Dave Goggon, our newest member. Welcome

Harbor master reports the Bathrooms are ready and will be opened soon. There is a hole in the harbor master boat's exhaust which needs repair. The Ferry landing ramp is done but can not be attached to concrete as we will need new connecting piers. The ramp helps hold the floats in place in the current there. The float moorings need to be checked as well. The floats at rec pier left in all season and are not level. We need to have some new dock boards, new non-slip. Flags will stay up all season.

Chris Curtis still needs to check electrical in bathrooms & piers.

There have been plenty of mooring applications in and 15 have been approved as of this meeting. We have padlock for crane and it will be placed on 05-01-16.

We then discussed the planters. Dave will get them to the piers. Two to rec pier & four to Creamery pier. Will need topsoil but we are hoping to fill ~~them~~ with composted soil.

We would like QTs Ice Cream to be placed in the back right corner of the Tea Pier.

Hot Dogs, Verizon & Jaul will go into far right side of Creamery Pier once the Chamber building has been centered. The pottery and forgotten receipts will stay as they are.

We are still hopeful we will have a paved pathway along the shore line between the piers. Ben and Marvin are working on a grant to provide finance for this project.

The Chamber of Commerce has a task force which will meet on 05-19-16 @ 1930 to discuss a Kayak Regatta. Margi will plan to attend.

We need permission from Army Corps of Engineers for any extra boat traffic.

Public comment "Very glad shoreline walkway is still being considered"

Adjourned at 2005

Next meeting on May 26th, 2016 @ 1900
